Abstract (en)
[origin: WO2019122399A1] The invention concerns a hair treatment apparatus (1), comprising: - two arms (4, 5) that are movable relative to each other and capable of assuming a spaced-apart configuration in which a lock of hair can be inserted between them, and a closed configuration for treating the lock of hair, the arms (4, 5) being capable of being moved along the lock in this closed configuration, - two contact surfaces (12, 13) carried respectively by the two arms (4, 5), arranged opposite each other, at least one of the contact surfaces (12, 13) being heated, - at least one steam outlet (20) carried by one of the arms (4) at a distance from the corresponding contact surface (13), in order to expose the hair engaged between the arms (4, 5) to steam, - a containment structure (21) for at least partially containing the steam, carried at least partially by the other of said arms (5), - a comb (30) having teeth (31), carried by said one of the arms (4) that carries said at least one steam outlet (20), said at least one steam outlet (20) being interposed between the comb (30) and the contact surfaces (12, 13).

Abstract (fr)
L'invention concerne un appareil (1) de traitement de la chevelure, comportant :- deux bras (4, 5) mobiles l'un par rapport à l'autre, pouvant prendre une configuration écartée d'introduction d'une mèche de cheveux entre eux et une configuration rapprochée de traitement de la mèche de cheveux, les bras (4, 5) étant déplaçables dans cette configuration rapprochée le long de la mèche,- deux surfaces de contact (12, 13) portées respectivement par les deux bras (4, 5), disposées en vis-à-vis, l'une au moins des surfaces de contact (12, 13) étant chauffante,- au moins une sortie de vapeur (20) portée par l'un des bras (4) à distance de la surface de contact (13) correspondante, pour exposer à la vapeur les cheveux engagés entre les bras (4, 5),- une structure de confinement (21), permettant un confinement au moins partiel de la vapeur, portée au moins en partie par l'autre desdits bras (5),
