Abstract (en)
[origin: WO2021156839A1] The present invention relates to a composition in the form of powder for oral inhalation, preferably for oral aspiration, comprising an active agent, preferably said extract of a plant of the genus Cannabis, preferably of Cannabis sativa L. Furthermore, the present invention relates to said composition for use in a method for the treatment of mucus hypersecretion and/or inflammations or infections or allergies of the respiratory system, preferably diseases, symptoms or disorders associated with mucus hypersecretion, in a subject in need. Lastly, the present invention regards a device for administration to said subject in need through the inhalation route for oral aspiration.
