Abstract (en)
[origin: WO2021156140A1] The present invention relates to an anhydrous crystalline form of rucaparib mesylate, preferably in polymorphically pure form and to a process for its preparation. Furthermore, the invention relates to a pharmaceutical composition comprising the anhydrous crystalline form of rucaparib mesylate, preferably in polymorphically pure form and at least one pharmaceutically acceptable excipient. The pharmaceutical composition of the present invention can be used as a medicament, in particular for the treatment of cancer.
