Abstract (en)

The invention relates to a clamping tongue (3) for a gripper assembly (1) of a weaving machine, wherein the clamping tongue (3) comprises a 3D-printed main body (30) having at least partly a hollow structure with an interior space (36), which interior space (36) is enclosed by a wall (37). The invention further relates to a gripper assembly (1) and to a weaving machine. In addition, the invention relates to a method for manufacturing a clamping tongue (3).
