Abstract (en)
[origin: EP4105143A1] This household tissue storage container 1 comprises a container body 10 having a storage space S inside which household tissue paper P is stored, wherein the container body 10 comprises: a container body upper part 11; a container body lower part 12; a connection part 13 connecting the rear surface of the container body upper part 11 and the rear surface of the container body lower part 12; an opening/closing lid 2 which opens/closes a take-out hole 113a for taking out the household tissue paper; and a button part 3 for opening/closing the opening/closing lid 2. A plurality of body-side ribs 1163 are formed on the front surface side of the outer surface of a body-side fitting part 1161 of a button attachment part 116 to which the button part 3 is attached, and a plurality of button-side ribs 34 are formed on the front side of a button-side fitting part 32 that protrudes downward from an upper surface part 31 of the button part 3. During attachment of the button part 3, the button-side ribs 34 are inserted through and fitted between the adjacent body-side ribs 1163, 1163.
