Abstract (en)  
[origin: WO2021165316A1] The present invention relates to a dapagliflozin granulate composition, which is suitable for preparing capsules or tablets. It also relates to a pharmaceutical dosage form for oral administration which comprises such granulate. The invention also relates to a method for the preparation of the dapagliflozin granulate and to the use of the dosage forms containing it for the treatment of diabetes mellitus.
