Abstract (en)

[origin: WO2021167543A1] The invention relates to a pan support for a gas hob comprising a metal frame (20) with an inner wall (24) and an upper part (26) adjacent to the inner wall (24); and a support arm (10) made of flat metal, which is secured to the upper part (26) through a base (17) such that extending inwardly at the frame (20). The pan support further comprises an elongated part (15) extending to the frame (20) through the base (17) and a welding seam (40) provided between the elongated part (15) and the frame (20).
