Abstract (en)

The present disclosure discloses a control method for a washing machine, and the method includes the following steps of: S1, acquiring information of a washing additive to be added by a mobile terminal; S2, matching a storage box for the washing additive; and S3, transmitting information of the washing additive and information of the matched storage box to a washing machine. The control method for the washing machine of the disclosure matches the washing additive with the storage box through the mobile terminal, avoids the wrong addition and delivery of the washing additive, and has the characteristic of simple and convenient operation.
