Abstract (en)  
[origin: EP4109486A1] Safety device and three-pole base. The device (1) comprising a series switch element (104) with a fuse (103), the switch (103) having an open state and a closed state; a manual actuator (105) for opening and closing the switch element (104); measuring means (106) for measuring at least one operational parameter of the device (1); and a control module (107) for performing a disabling when the operational parameter meets a predetermined condition; wherein said disabling comprises acting on the switch element (104) in order to move the switch element (104) from the closed state to the open state.
