Abstract (en)

[origin: WO2021170856A1] The present invention relates to the field of fish substitutes, more precisely to a method for obtaining a raw vegan fish substitute having complete organoleptic properties (colour, taste and smell) similar to fish as well as a gelatinous and moist appearance specific to raw flesh while retaining the strength, elasticity and fibrous appearance associated with these products. The present invention also relates to this product and its use, for example, in sashimi, smoked salmon, maki, sushi and ceviche.
