Abstract (en)

[origin: WO2021170382A1] The invention relates to a method and a device (20) for decorating an injection-moulded part (40) and to an injection-moulded part (40). The method for decorating an injection-moulded part (40) comprises the following steps, which are in particular carried out in the following order: a) providing a transfer film in the form of a roll (10); b) cutting the transfer film to size to form at least one label (30, 11); c) laying the at least one label (30) in an injection-moulding apparatus (21) by means of a robot arm (24, 12); d) closing the injection-moulding apparatus (21, 13); e) injecting an injection-moulding compound (14) behind the at least one label (30); f) opening the injection-moulding apparatus (21) and removing the injection-moulded part (40, 15).
