Abstract (en)  
As seen in the vehicle side view, the canister is disposed higher than the footboard. As seen in the vehicle rear view, the canister is disposed on the opposite side to the fuel filler port and the fuel pipe in the vehicle width direction with respect to the down frame. The canister is at least partially disposed forward of the fuel tank. The charge tube is disposed over the right side and the left side of the down frame. The fuel pipe or fuel filler port includes a charge tube connector to which the charge tube is connected. As seen in the vehicle side view, the charge tube connector is disposed higher than the upper end of the under bracket.
