Abstract (en)  
A sheet stacking device (15) includes a sheet stacker (104), an image capturing device (110, 120), and a processing device (80). The sheet stacker (104) stacks a sheet (P). The image capturing device (110) captures an image of a whole face of the sheet (P) stacked in the sheet stacker (104). The processing device (80) detects information of the sheet (P) stacked in the sheet stacker (104) based on image data of the image captured by the image capturing device (110, 120).
