Abstract (en)

In a roof window (100), a covering set (10) is provided for covering an element (1) of the roof window (100). The covering set (10) comprises at least one fastening element (7) for being inserted into a component (121, 131, 141) of the roof window (100) and one or more covering elements (12, 13, 14, 15, 16) including at least one opening (14a) for receiving a respective fastening element (7). Each fastening element (7) comprises a head portion and a body portion, and at least the head portion (72) comprises a magnetic or magnetisable material.
