Abstract (en)

[origin: WO2021180379A1] The present invention relates to a method for dyeing keratin material, in particular human hair, comprising the following steps: - applying an agent (a) to the keratin material, said agent (a) containing: (a1) at least one organic silicon compound from the group comprising silanes, said compound having one, two or three silicon atoms; and (a2) a first dyeing compound comprising at least one pigment based on a lenticular substrate flake, and (a3) a second dyeing compound, and - applying an agent (b) to the keratin material, said agent (b) containing: (b1) at least one sealing reagent. The invention further discloses a multi-component packaging kit (kit-of-parts) for dyeing keratin material.
