Abstract (en)

[origin: WO2021180547A1] The invention relates to a method, in particular a computer-implemented method, for processing images, in particular digital images, said method comprising the following steps: providing a first image and a second image; transforming the first image into a first descriptor image and the second image into a second descriptor image; determining a distance image based on a comparison of the first descriptor image with the second descriptor image; and forming a detection image based on the distance image.
