Abstract (en)
[origin: WO2021198584A1] The invention relates to a method for depositing a coating onto a metal substrate comprising depositing (200) a layer of paint onto said metal substrate, characterised in that depositing (200) the layer of paint comprises the following steps: - a step (210) of depositing a layer of a paint precursor material onto the metal substrate by anaphoresis; - a step (220) of curing the previously deposited layer of precursor material, in which step the precursor material is polymerised to form the layer of paint.
