Abstract (en)

[origin: WO2021195684A1] The invention relates to a vacuum filling method and to a vacuum filling apparatus (1). The vacuum filling method comprises the method steps of providing a vacuum filling apparatus (1), providing a housing (3) having a housing interior (7) and an inlet opening (10) that connects the housing interior (7) to a housing exterior (11), charging the housing interior (7) with a housing interior pressure (14) of between 0 mbar and 950 mbar, in particular between 10-12 mbar and 300 mbar, preferably between 10 mbar and 100 mbar, by means of the vacuum filling apparatus (1), filling the housing interior (7) via the inlet opening (10) with a fluid medium (8) using the vacuum filling apparatus (1).
