Abstract (en)
[origin: WO2021205277A1] The invention relates to an endoscope (1) comprising a working channel (122) in an insertion tube (20), a control body (10), on the distal side of which the insertion tube (20) is connected, and a mounting body (100) which can be detachably fastened on the control body (10). The detachably fastenable mounting body (100) includes a working channel subassembly and a suction device subassembly.
