Abstract (en)

[origin: WO2021204791A1] The invention relates to a coating cabin (1) for coating vehicle wheel rims, wherein the coating cabin (1) has a coating chamber and a conveying device (6) for transporting the workpieces (2) for coating through the coating chamber. According to the invention, an applicator system is furthermore provided for spraying coating material as required in the coating chamber, wherein the applicator system has a first pistol system (8) for spraying coating material as required onto a first region (11) of the workpieces (2) for coating, a second pistol system (9) for spraying coating material as required onto a second region (12) of the workpieces (2) for coating, and a third pistol system (10) for spraying coating material as required onto a third region (13) of the workpieces (2) for coating.
