Abstract (en)

[origin: WO2021209461A1] The present invention concerns a method (100) for authenticating use of a cartridge with an aerosol generation device comprising a control unit configured to adjust its operation according to operational settings upon receiving a control command; the method (100) comprising the following steps: - associating (110) a cartridge unique identifier with a purchasing user identifier to form purchase information; - storing (120) the purchase information in a distant server; - comparing (140) the purchase information with a request for using, wherein the request for using comprises a cartridge unique identifier and a consuming user identifier; - based on said comparison, generating (145) a control command to control the operation of the aerosol generation device according to this control command.
