Abstract (en)
[origin: WO2021209722A1] The invention provides a solution for the replacement of TiO₂ in toothpaste to achieve a whiteness similar to that obtained with this controversial ingredient. The invention thus relates to an orodental composition in the form of a toothpaste comprising an oil-in-water emulsion comprising (i) a fatty phase dispersed in an aqueous phase, said emulsion being stabilized by an emulsifier, and (ii) a foaming agent, and, optionally, an abrasive filler.
