Abstract (en)

[origin: WO2021214125A1] The present invention relates to a bracket (500) for holding a connector (145) of a dialysis liquid supply tube (104) and a connector (147) of a dialysate drain tube (102), the bracket (500) having an arm (140). The arm (140) has a first receptacle (141) for receiving or holding the connector (145) of the dialysis liquid supply tube (104) and a second receptacle (142) for receiving or holding the connector (147) of the dialysate drain tube (102). The present invention further relates to a blood treatment apparatus (100) and a method for preparing a blood treatment apparatus (100) for a blood treatment session.
