Abstract (en)

[origin: WO2021212173A1] Disclosed is a method of constructing a self-propelled floating structure. The method may comprise coupling a plurality of marine vessels together in a side by side spaced apart manner. At least one of the marine vessels may comprise a propulsion system and each marine vessel comprises a hull. The method may also comprise forming a weather deck that spans the plurality of marine vessels and spaces between the marine vessels.
