Abstract (en)
A cylindrical non-combustion-heating-type tobacco having a first filter part, a second filter part, and a wrapping paper that wraps around these filter parts so as to form a space between the first filter part and the second filter part. A granular tobacco material is movably positioned in the space. The total added quantity of glycerin, propylene glycol, triacetin, and 1,3-butanediol per 100 wt% of the tobacco material is 10 wt% or less.
