Abstract (en)  
A dual lock actuator 100 for a door. The door has a first lock having a retractable first bolt extendable from the door and a second lock having a retractable second bolt extendable from the door. The dual lock actuator 100 includes a crash bar 120 that is locatable on a side of the door; a first engagement feature for coupling the crash bar with the first bolt; and a second engagement feature for coupling the crash bar with the second bolt. The crash bar 120 is operable to retract the first bolt when extended via the first engagement feature and operable to retract the second bolt when extended via the second engagement feature.
