Abstract (en)
[origin: WO2021222949A1] The invention relates to a floor cover (1), in particular a disposable carpet, comprising a textile layer (2), the textile layer (2) comprising a textile material formed from a textile fibre composite, an adhesive layer (3), the adhesive layer (3) comprising an adhesive material, and a cover layer (4), the cover layer (4) comprising a preferably tear-resistant cover film, the textile layer (2), the adhesive layer (3) and the cover layer (4) being arranged substantially parallel to one another, and the adhesive layer (3) being arranged between the textile layer (2) and the cover layer (4), the adhesive layer (3) being designed in such a way that the floor cover (1) is self-adhesive and can be detached again without leaving behind any residue, and the adhesive material being infiltrated at least in part into the textile fibre composite so that the adhesive layer (3) is anchored in the textile layer (2). The invention also relates to a method for producing a floor cover (1).
