Abstract (en)

[origin: WO2021228903A1] The present invention discloses a method comprising checking connection status between an aerosol generating device and a personal computing device; determining whether to indicate an upcoming notification from the personal computing device on the aerosol generating device; sending a confirmation to the personal computing device if the upcoming notification can be indicated on the aerosol generating device; and disabling indicating the upcoming notification on the personal computing device upon receiving the confirmation from the aerosol generating device.
