Abstract (en)
The present disclosure relates to an aerosol delivery device and system e.g. a smoking substitute device and system. In particular the present disclosure relates to an aerosol delivery device (102) comprising at least one connector pin (20a, 20b), the connector pin having a main body (27), a first head (21a, 21b) for electrical connection to an aerosol delivery component comprising a vaporiser, and a second head (22a, 22b) for electrical connection to an electrical component within the device, wherein both the first and second heads are biased to extend from the main body.
