Abstract (en)

[origin: WO2021234538A1] The present invention relates to a process for preparing an active liposome which comprises an active ingredient in a liposome. Furthermore, the present invention relates to said active liposome as such (per se), or obtained from such process. Furthermore, the present invention relates to a composition comprising said active liposome and, optionally, food-grade or pharmaceutical-grade additives and/or excipients.
