Abstract (en)

[origin: CA3177812A1] The invention relates to the use of polyamines, tyramine and/or a plant extract containing same to stabilise microorganisms under environmental stress, such as oxidative stress, osmotic stress or saline stress, heat stress, acid-base stress and/or stress linked to competitor microorganisms; and a composition comprising (a) polyamines, tyramine and/or a plant extract containing same, and (b) microorganisms.
