Abstract (en)

[origin: WO2022023487A1] The invention relates to a sanitary fitting (1) that is comfortable to use for outputting mains water and prepared water of at least one preparation type, in particular filtered and/or boiling and/or chilled and/or carbonated water, wherein at least one control unit (11, 13, 21) is provided for controlling the respective water flow of the mains water and/or the prepared water, and an operating unit (10) is provided for contactlessly influencing at least one of the water flows, in particular both water flows, and for generating and forwarding control signals to at least one of the control units (11, 13, 21).
