Abstract (en)
[origin: WO2021239359A1] The invention relates to an attachment part for a motor vehicle comprising a main body (10), a securing element (20) for mechanically securing the attachment part (1, 1A) to a vehicle, and an electrical consumer (30) integrated into the attachment part (1, 1A), wherein connection conductor paths (40, 42) are attached to the main body (10) for electrically connecting the consumer (30) to a vehicle-side power supply, with said connection conductor paths contacting the electrical consumer (30) and extending up to the securing element (20). The invention also relates to a vehicle comprising an attachment part of this type and a method for the production of the attachment part.
