Abstract (en)

[origin: WO2021250019A1] The invention relates, in a first aspect, to compositions for the prevention and/or treatment of urinary tract infections and to corresponding medicinal products. In another aspect, the invention relates to compositions containing mannose, to cosmetic products comprising an embodiment of these compositions, and to their external application to the skin. The invention further relates to dispensers which comprise the compositions or cosmetic products according to the invention.
