Abstract (en)

[origin: WO2021244890A1] The invention relates to a method (300) for incorporating a device (130) into a LAN (111), wherein the device (130) has a certificate (213) which was derived from a device reference certificate (211). The method (300) comprises checking (301) whether the certificate (13) of the device (130) matches at least one reference certificate (201), which is available at a first access point (110) to a first LAN (111). The method (300) furthermore comprises the incorporation (302) of the device (130) into the first LAN (111) when it is determined that the certificate (213) of the device (130) matches at least one reference certificate (201) available at the first access point (110).
