Abstract (en)
[origin: WO2022031689A1] Provided is an electric vehicle (EV) charging station for fast charging [e.g. 5 to 15 minutes] charging an electric vehicle (EV). The EV charging station can be configured to charge multiple EVs and multiple conventional fuel type vehicles at the same time. The EV charging station includes a power source; an electrical service receiving power from the power source; a primary electric reservoir receiving power from the electrical service; a secondary electric reservoir receiving power from the primary electric reservoir; and a first EV charger receiving power from the secondary electric reservoir.
