Abstract (en)

A fitness exercise apparatus (100, 100') includes a base member (11), a support unit (12) disposed on the base member (11), and a slide bar (13) disposed on the support unit (12). A seat frame (20) includes a connector (21) connected to and slidable along the slide bar (13), a guide rail (23) connected to the connector (21), and a foot post (26) connected to the guide rail (23) opposite to the connector (21). A swing frame (30) is connected to the guide rail (23) at a position corresponding to the foot post (26). An elastic cord unit (40) includes a plurality of first and second elastic cords (41, 42) connected to the support unit (12). A pulling unit (50) includes two first cables (52) connectable with the first elastic cords (41). An operating unit (60) is connectable with the first cables (52).
