Abstract (en)

[origin: WO2021254704A1] The invention relates to a fork lift truck (101) comprising at least two environment sensors (105a, 105b) which are attached to different fork arms (103a, 103b). These environment sensors are each outwardly oriented with at least a part of their detection range (111a, 111b) transversely to the fork lift truck (101).
