Abstract (en)

A magnesium hydride production apparatus and the like suitable for mass production of magnesium hydride is provided. A magnesium hydride production apparatus (10) includes: a tubular production furnace (20), in which magnesium hydride is produced by causing magnesium and hydrogen to react with each other; a first chamber (21) connected to a first end of the production furnace (20), in which chamber the magnesium to be charged into the production furnace (20) is heated; and a second chamber (22) connected to a second end of the production furnace (20), in which chamber the magnesium hydride produced in the production furnace (20) is cooled.
