Abstract (en)

[origin: WO2021259099A1] The present invention concerns a detergent composition comprising enzyme capable for degrading cellulosic materials and its use for removing dust mite from the surface of textile. In one aspect, said enzyme capable for degrading cellulosic materials is GH45 cellulase. In a further aspect, said GH45 cellulase is *Thermothielavioides terrestris* endoglucanase.
