Abstract (en)

[origin: EP4173982A1] A partition for locating and protecting bottles within a box, said partition comprising a foldable unitary blank comprising an arrangement of panels separated by fold lines and adapted to be folded to form a partition having three parallel cavities for receiving respective bottles therein, the panels being arranged to define double wall portions bounding said cavities to provide effective protection to glass bottles when inserted into the cavities of a plurality of said partitions inserted into a box.
