Abstract (en)

The invention relates to a ventilation system comprising a controlled mechanical ventilation (CMV) unit, which comprises an electrical junction box (1) for connection to the mains of the CMV unit (2), the electrical junction box (1) with a plurality of connectors (3) therein to connect the wiring of the mains, the electrical junction box (1) being attachable on an outer face of the CMV unit (2) so that the connectors (3) are inserted into internal connection pins (4) of the CMV (2), the pins (4) being connected to the electrical/electronic components of the CMV (2) and all the electrical components of the CMV (2) being connected to the mains.
