Abstract (en)

[origin: CN113877765A] The invention relates to a treatment station and method for treating workpieces, which allow optimum treatment of the workpieces. The treatment station includes a treatment chamber that can be flooded for the purpose of treating the workpiece. The invention relates to a treatment station (114) for treating a workpiece (102), especially a treatment station (114) for purifying and/or coating a vehicle body (104), wherein the treatment station (114) comprises a treatment vessel (136), the treatment vessel encloses a treatment chamber (148) for receiving a workpiece (102). The treatment chamber (148) can be flooded with fluid. The treatment station (114) includes one or more in-built members that are arranged or can be arranged in the treatment chamber (148) to assist the flooding process.
