Abstract (en)
[origin: WO2022018748A1] The present application relates to improved and effective purification processes for semaglutide. The present invention is also related to stable semaglutide. The present invention is also related to stable semaglutide comprising phosphate content in the range between 5% to 15% w/w and sodium content in the range between about 4% to about 10% w/w.
