Abstract (en)
[origin: WO2022018437A1] 1. The invention provides a method of recovering a precious metal in solid form from an article, the article comprising a base metal attached to the precious metal, the method comprising the steps of: (a) bioleaching of the base metal by bacterial oxidation so as to detach the precious metal in solid form from the base metal; and (b) recovering the precious metal.
