Abstract (en)  
The present disclosure relates to a cake shield comprising: a cover for covering a cake, wherein the cover comprises a top surface; a silicone plate comprising a plurality of openings for receiving decorative elements, like cake candles, said plate configured to be placed on the top surface. The present disclosure further relates to a plate, such as a silicon plate, comprising a plurality of openings for receiving decorative elements, like cake candles, said plate configured to be placed on the top surface of a cover. The present disclosure further relates to a food shield comprising a cover for covering food and a perimeter rim with a first groove for receiving a lower perimeter edge of the cover.
