Abstract (en)

[origin: WO2022023121A1] The invention relates to a height-adjustable pole and/or cantilever arm, e.g. a cantilever arm of a free-standing umbrella, in particular a cantilever or pendulum umbrella. According to the invention, a construction for the height adjustment of a pole, e.g. of a free-standing umbrella, is provided for the first time, in which a gas pressure spring is set against the weight of the pole plus the weight of the umbrella canopy.
