Abstract (en)
[origin: WO2022200012A1] The proposed invention relates to a sealing arrangement (2) for sealing an opening formed between a first closing part (104) and a second closing part (105). The sealing arrangement (2) has a first sealing portion (21) to be mounted on the first closing part (104) and a second sealing portion (20) to be mounted on the second closing part (105). The sealing arrangement (2) comprises an additional securing mechanism (S), via which a sealing structure (2V) consisting of the first and second sealing portions (21, 20) in a sealing position is secured.
