Abstract (en)
[origin: CA3184720A1] The invention relates to a printer (1) for printing plate-like media, in particular for printing marker maps (2) with markers (3) for marking electrical devices, wherein the printer (1) has a housing (5) and at least one input station (100) for the marker maps (2) to be printed, a printing station with a printing device and an output station (200) for outputting printed marker maps (2), characterised in that the output station (200) has a magazining device (202) which has one or more guide devices (2021a, 2021b) so that the output station (200) can be drawn by means of the magazining device (202) from a position pushed into the housing (5) into a position outside the housing (5) and can be pushed back into the housing (5) of the printer (1), and in that each guide device (2021a, 2021b) also has its own stacking unit (204a, 204b) which is pivotably mounted.
