Abstract (en)
[origin: EP3945215A1] A control unit (150) for a pump (100) which includes a power button (160) to operate the pump (100). The control unit (150) includes a plurality of light emitting units (L1, L2, L3) provided with the control unit (150). The plurality of light emitting units (L1, L2, L3) indicate one or more operating parameters of the pump (100). The control unit (150) includes a control button (170) which is actuated based on a user action. The control unit (150) is characterized in that the control button (170) allows to switch between a plurality of operating modes of the pump (100) based on different user actions. And, the plurality of light emitting units (L1, L2, L3) indicate switching between the plurality of operating modes of the pump (100) by change in color corresponding to the plurality of operating modes of the pump (100).
